**2,775 Sq.Ft.**

### First Floor Plan

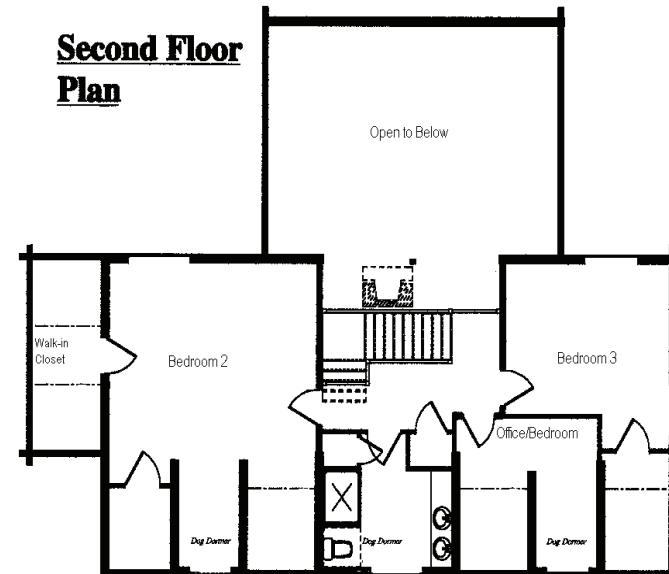

A perfect home-away-from home or vacation retreat! This cape style home offers an inviting covered porch and an open deck off the sunroom/great room for lots of family gatherings and entertainment. Acres of beauty and wildlife can be enjoyed from every room or one of the cozy porches and decks. The sunroom/great room, outstanding fireplaces and a spacious dining room are just a few areas

to get together for good company and conversation! Hilltop's authorized National Sales/Builder Representative, Ed Hoffman, of Brockway, PA added a lot of personal touches to this 6"x8" Western Red Cedar log style including dovetail corners, red metal roof with snow rakes and outstanding interior trim work. The walk-outbasement allows even more space for another bedroom, recreation room (accented by a stunning tin ceiling), large private bath, laundry room and a great covered storage area for those ATVs.

### Second Floor Plan
